17. (Unclassified - LLM) Spoke with Robert Hull at the Department of State to determine State's position on the possible incorporation of changes in the Civil Service retirement system as a result of active bills in the Congress. Hull said they thought they would propose catch-up amendments to go with the cost of living change (H.R. 3799) but not for the retroactive date for which he felt there was no justification; the reduction from two to one year over the length of marriage required to qualify a second spouse for a survivor annuity (S.2174); and peg employee contribution rates to those exact amounts set by the Civil Service Commission for the Civil Service retirement system.

Believing that this catch-up requirement places an unnecessary strain on our respective retirement systems, Hull asked how far we had gotten with our proposal which I discussed with him a number of years ago to provide the Director the authority to administratively adopt changes in comparable provisions approved for the Civil Service retirement system. I reviewed with him the progress we had made with OMB (Roger Jones) and the resistance from our committees. Hull said he would be interested in seeing the language of our proposal. In response to his request, I told Hull I would send him the specific language of our proposal.

18. (Unclassified - PLC) Oscar [] and said that he would call again on Monday and at that time he will provide a telephone number and the time so that someone from the Agency can call him to arrange an interview. (See Journal 11 October) DCD and OS were advised.

20. (Internal Use Only - LLM) In connection with his pending questions (see Memorandum for the Record) advised Scott Armstrong, on the staff of the Senate Select Committee on Presidential Campaign Activities, that (a) we had no information on the possible association between Robert Maheu and Cubans over the last ten years or so; and (b) we had no independent reporting on the activities of F. Donald Nixon and John Meier in the Dominican Republic and referred him to the Department of State as the responsible department if he had further interest in this matter. Armstrong will call State but volunteered that he would not refer to our conversation.
